### Information

*CucPhuong National Park is the first recognized and most well protected nature reserve in Vietnam. The Park's primary tropical rainforest is home to an amazing variety of wildlife and in recent years several species have been discovered here. There are almost 2000 species of trees and amongst them lives some amazing and rare animals including the clouded leopard, Delacour's Langur, Owston's Civet, Otters and Asian Black Bears...*

Start at 08:00 am, we drive for two hours to Cuc Phuong. Once arrive, we will visit the Endangered Primate Rescue Center, and learn about the conversation works that are being done at this well protected National Park.

Leave headquarter of the national park to the starting trekking point. In the primary forest you will trek for two to three hours, passing limestone slopes and tree of over a millennia old. During the trek we are to see many special trees of the region. We then are transferred back to Hanoi. Arrive in Hanoi at around 18:00 pm. Tour ends.
